

In addition to the technology-rich classrooms, lecture hall and auditorium (<http://business.missouri.edu/538/default.aspx>), updates and other technology in Cornell Hall include:

- new updated media control interface in 14 classrooms. For instructions on use, see <http://business.missouri.edu/544/default.aspx>.
- new projectors in rooms 11, 115 and 212
- classrooms on the lower level, rooms 40, 42 and 44, have a slightly different media control interface, as well as Smart Sympodium display units, <http://www2.smarttech.com/st/en-US/Products/Interactive+Pen+Displays/ID370/default.htm>. These displays are also installed in classrooms 217 and 219. To request training on the Sympodium, send a request to Technology Services via <https://business.missouri.edu/cobis>.
- Distance Learning Classroom, room 204 (<http://business.missouri.edu/539/default.aspx>). Helpful videoconferencing Q&A at <http://business.missouri.edu/634/default.aspx>. The Executive Classroom (room 205) can receive, but not send, video and audio for use with a larger capacity audience. Reserve through Technology Services by submitting a request via <https://business.missouri.edu/cobis> at least 3 weeks prior to your planned videoconference. Reservations that do not involve a videoconference are at risk to be cancelled at any time by a videoconference request or needed test.
- Executive Classroom, room 205. Contains technology equipment identical to most other classrooms. As noted above, this room can receive remote video and audio from room 204 videoconferences. Reserve through Linda Paul or Barb Railton.
- Vasey Alumni Reception Room, room 105. Used primarily for meetings and other events involving external constituents. Projector and electronic screen are typically used with a laptop. The two floor boxes at the north side of the room contain video and audio connections to the projector. Projector remote and laptop cable may be checked out from Instructional Support Services (ISS), room 221. Reserve through Linda Paul or Barb Railton.
- State Farm Investment Room, 308A. Used for the Investment Fund Management Program operated by the Finance Department. Technology equipment includes 6 student workstations, each with dual 19" flat panel monitors, and two 55" wall-mounted LCD's. A Bloomberg-enabled workstation is scheduled to be installed Fall 2009.
- 30 station laptop cart (<http://business.missouri.edu/601/1216.aspx>) that connects to the building's wireless network. Training is required for first time users; schedule by submitting a support request to Technology Services via <https://business.missouri.edu/cobis>. Reserve through Barb Railton in ISS.
- Division of IT computer classrooms, rooms 3, 4 and 5 (<http://business.missouri.edu/541/default.aspx>). Reserve through <http://doit.missouri.edu/sites/resources.html>. Each of these rooms functions as an open access computer lab when classes are not being held. A list of software currently available can be found at <http://doit.missouri.edu/sites/software.html>. To request other software in these areas, see <http://doit.missouri.edu/sites/resources.html>.
- Laptop check-out program for students in room 3A, with service to the atrium. 20 laptops available. A list of software currently available can be found at <http://doit.missouri.edu/sites/software.html>.
- A black and white printer and a color printer near the north end of the lower level. Students may print from any of the 12 email kiosk computers, the 12 student computers near the vending machines, and check-out laptops as they would in the computer labs. Printing from students' own laptops is possible but requires the installation of Print Anywhere software, available from <http://doit.missouri.edu/downloads>.
- multipurpose rooms 15 and 16 on the lower level. Projector, electronic screen, audio system and interface for laptop projection.

- Significant technology enhancements in Bush Auditorium, including an enhanced audio system, wireless microphone, projector and instructor media interface. The auditorium has videoconferencing, video recording and webcasting capabilities.
- Four 3-station email kiosks in the atrium on the first floor and lower level. As of Spring, 2008, all kiosks have new computers and displays, and are now on the building's wired network for faster performance. Only campus web addresses are allowed.
- A building directory kiosk near the first floor south building entrance. Maintenance of this information is performed by each college unit. Web browsing is disabled. Also, the information/reception desk near the building's main second floor entrance contains another building directory computer.
- student computer in the Accountancy Student Lounge, room 101
- 2 student computers in the MBA Student Lounge, room 209
- 3 student computers, scanner and printer in the Undergraduate Programs Office, room 111
- 12 student computers at the north end of the lower level (near the vending machines)
- soon to be installed at the north end of the first floor atrium are 7 student workstations and a printer
- 2 multimedia workstations - one Dell and one Macintosh - in room 308K, <http://business.missouri.edu/976/Default.aspx>. Training is available by submitting a support request to Technology Services via <https://business.missouri.edu/cobis>. Reserve through the Multimedia Workstations Outlook Calendar (instructions at <http://business.missouri.edu/1245/default.aspx>).
- Behavioral Lab rooms (<http://business.missouri.edu/542/default.aspx>). These are four interview rooms in the Business Career Services suite that each have a camera and microphone connected to a VCR in a separate control room. Reserve through Amanda Wooden or Shelly Davis.
- Student Resource Area in Business Career Services. 3 workstations and a printer for job research and resume writing.
- student computer in room 103E of Business Career Services running InterviewStream software, allowing students to participate in mock interviews.
- ISS checkout equipment, including: laptops, computer projectors, digital camera, digital camcorders, web cameras, microphone headsets, teleconference phone, and wireless microphones for the lecture hall (room 115) and the atrium, <http://business.missouri.edu/1053/default.aspx>. Reserve through Barb Railton in ISS.
- 13 breakout rooms. No active data ports but wireless network is available. Reservations not required. Breakout rooms 125 and 220 each have a 42" wall-mounted LCD for student group work and for students to practice presentations.
- Conference rooms 303D, 307A, 403A, 408H, 449 and 407F (Dean's Board Room). For details and reservations, see <http://business.missouri.edu/61/default.aspx>. A laptop may be connected to a 46" wall-mounted LCD in rooms 303D, 403A and 449. A laptop may be connected to a 60" plasma display in 407F.
- Wireless network (802.11a/b/g) throughout the building has been updated with much broader and stronger coverage, (<http://business.missouri.edu/137/default.aspx>)
- Student copier at the north end of the lower level. Cost: \$.05/copy via student ID card swipe.
- Newer, more powerful atrium projector. Repositioned to allow enhanced viewing from the atrium floor.

- Wharton Research Data Services, or WRDS, an Internet-based business data research service from The Wharton School at the University of Pennsylvania. Data from CRSP, COMPUSTAT, Thomson Financial and other business research databases to which the college subscribes can be downloaded. Request a WRDS account via the web page <http://wrds.wharton.upenn.edu>. Also, information on the college's subscription databases can be found at <http://business.missouri.edu/1184/default.aspx>. Contact Ron Howren for further information.
- Qualtrics web survey software, <http://business.missouri.edu/Qualtrics>. A one year college-wide site license acquired in Summer, 2008 was recently renewed. Available to college faculty, staff and students.
- Guided by a task force, the college's website (<http://business.missouri.edu>) is continually evolving. Also, the college's intranet site, <https://internal.business.missouri.edu>, is accessible to faculty, staff and doctoral students, and available to college units and committees. Contact Shahn Hogan with questions.
- 5 digital signs in public areas: one near the main second floor entrance, one each outside the offices of Advising and Business Career Services, one near the building's south entrance, and one on the lower level near the main staircase. Four units are currently posting information: Advancement, Advising, Business Career Services and the MBA Office. Other units may submit a request via <http://business.missouri.edu/speakerform/form.aspx>.
- For hardware purchases, please see the college's Computing Equipment Purchasing and Support Policy, <http://business.missouri.edu/938/default.aspx>.
- To promote an event or to obtain a certificate for a visiting speaker, use the online form <http://business.missouri.edu/speakerform/form.aspx>. In order to obtain a printed certificate signed by Dean Walker please submit the form at least one week prior to the speaker's visit. Once the Advancement Office receives the submission, you will be notified when the certificate is ready.
- Announcements of general college interest can be posted on the college's website, the atrium screen and the hallway digital signs. Normally posted 7-10 days prior to an event. Submit requests via <http://business.missouri.edu/speakerform/form.aspx> 3 business days prior to initial posting date.

If you have any questions on the use of any Cornell Hall technology contact Drew Reeves, Tony Chirillo or me. Phone numbers: Drew, 884-8172 office, 673-9017 cell; Tony, 882-2119 office, 819-7647 cell; Mike, 884-6859. The Technology Services website is also a good resource, <http://business.missouri.edu/135/default.aspx>.

Finally, please submit all technology support requests via <https://business.missouri.edu/cobis>.

Mike
